MEHRDAD KHANI

PRODUCT & PROJECT COORDINATION | APPLIED AI

Mississauga, Ontario | (437) 663-7790 | M.NasrollahKhani@gmail.com
mehrdadkhani.com | linkedin.com/in/Mehrdad-Khani | github.com/MehrdadNsr

PROFESSIONAL PROFILE

Independent AI product builder with a background in pharmaceutical operations, quality assurance and cross-functional coordination. Experience translating work into clear tasks, training colleagues, documenting decisions and resolving operational issues. Currently in Production Compounding at Apotex; targeting Product and Project Coordinator roles in AI.

CORE CAPABILITIES

Feature prioritization • Iterative delivery • Cross-functional coordination • Technical communication • Training • Issue follow-up • Risk assessment • Process improvement

SELECTED AI & PRODUCT PROJECTS | 2026

Vazne | Independent Product Builder

Workout companion for iOS and Android | In testing | vazne.app

- Directed the product experience for a bilingual workout app covering plan import, set logging, rest timing and progress tracking.
- Prioritized core workout flows and guided AI-assisted implementation; iterated on navigation, input controls and visual consistency.
- Reviewed builds and refined usability through repeated testing, balancing new features with a simpler workout experience.

Trafactor | Independent AI Studio

AI products, open-source tools and experiments | trafactor.com

- Defined project direction and product positioning for an independent portfolio of AI tools and applications.
- Coordinated AI-assisted design, development and review, turning broad ideas into specific features and clearer user experiences.

Matrix Agent Room | Workflow Design & Experimentation

Open-source multi-model workspace | github.com/MehrdadNsr/matrix-agent-room

- Designed and ran a shared workspace for AI assistants using Supabase and automated model bridges.
- Defined coordination rules, tested communication workflows and documented reliability gaps, decisions and follow-up fixes.

WORKING TOOLS

AI-assisted development, GitHub, Supabase, Python, Excel and PowerPoint. Practical experience defining tasks, reviewing outputs and documenting issues across AI-supported workflows. English and Persian.

MEHRDAD KHANI

Product & Project Coordination | Professional Experience

PROFESSIONAL EXPERIENCE

Apotex | Production Compounding

Oct 2026 - Present | Richmond Hill, Ontario

- Currently part of the Production Compounding team in pharmaceutical manufacturing.

Eurofins CDMO Alphora | API Production Technician

Dec 2023 - May 2026 | Mississauga, Ontario

- Acted as co-lead when the supervisor was away; coordinated daily work with planning, warehouse, maintenance, Quality and Tech Transfer.
- Trained new colleagues on procedures, equipment, safety and GMP expectations.
- Maintained batch timing and reconciliation data to support cycle-time analysis and reporting.
- Helped resolve production issues, contributed to root-cause reviews and proposed improvements to batch instructions.

CinnaGen | Quality Assurance Specialist - Process Validation

Mar 2023 - Jul 2023 | Tehran, Iran

- Coordinated with manufacturing, QC and engineering on deviations, corrective actions and controlled-document updates.
- Supported process and cleaning validation; used risk assessment to prioritize validation activities.

CinnaGen | Downstream Purification Specialist - R&D

Aug 2021 - Mar 2023 | Karaj, Iran

- Connected R&D with Production, Quality, Tech Transfer and Warehouse to support process transfer and technical alignment.
- Turned experimental work into reports and presentations; trained production staff on procedures and equipment.
- Supported biosimilar process development and documented findings for protocol refinement.

CinnaGen | Downstream Purification Technologist - Production

Oct 2019 - Aug 2021 | Karaj, Iran

- Contributed to vaccine production and biopharmaceutical manufacturing in GMP environments.
- Coordinated with QC, QA and Tech Transfer, trained new staff and documented manufacturing activities.

EDUCATION & CREDENTIALS

BSc Biotechnology | University of Amol, Iran | 2015-2019
WES evaluated | BioReady Certified Process Development Technician, BioTalent Canada

SELECTED DOMAIN EXPERTISE

Vaccine and API production; bioprocess development; GMP documentation; risk assessment; root-cause analysis; CAPA; process validation.
